Applicant Dr.....

Electricity Consumer No.....

Subject :- Regarding my inclusion in tariff plan “**public service**” category i.e. LT – X or HT-IX

Reference :- 1) RTI enquiry by Dr. K.M. Raul (IMA Secretary. Abad) at nodal office Aurangabad no. 1186 dated 5/7/14

2) Maharashtra electricity regulatory commission case no.19 of 2012

3) Maharashtra electricity regulatory commission annual report 2012-13 Page 20

Respected sir,

I the undersign Dr.....consumer of electricity as a owner of the hospital/ dispensary/ Pathology laboratory Situated at Would like to apply for change in tariff plan of electricity under category of LT- X (low tension –X) / HT – IX (high tension – IX), as per Approved Tariff Schedule Company Limited (MSEDCL) for various classes of consumers as applicable from 1st August, 2012, I understand that, this category applicable to Education Institutes, Hospitals, Dispensaries, Primary Healthcare Centers, Pathology Laboratories , Polices Stations, Post Offices , Defense Establishments (Army, Navy and Air Force),Public Libraries and Reading Rooms, Railway Etc,

The Maharashtra electricity regulatory commission annual report 2012 – 2013 page 20 also states A new category called “Public Services” in both LT and HT has been formed. This new category shall be applicable for hospitals and educational institutes (irrespective of ownership).

In RTI enquiry by Dr. Kuldeepsing Raul received information and it has been stated that govt. & Pvt. Hospital are categorized as “public service” as per approved tariff plan by the MAHARASHTRA STATE ELECTRICITY DISTRIBUTION CO. LTD. (WITH EFFECT FROM AUGUST 1, 2012). It is statutory duty of your department to charge electricity to the applicant’s hospital / dispensary / pathology lab which is a “ public Service” category. However even though there are direction by Maharashtra electricity commission your department electricity tariff charging me in “ commercial” category.

The applicant filled this application for to change the category of electricity tariff charges from commercial category to “ PUBLIC SERVICE” category i.e. LT-X or HT IX.

Therefore applicant requested you to covert electricity bill tariff plan from commercial tariff plan to PUBLIC SERVICE Tariff plan

Thanking you
